Yarning Circle

Part A

List Strength, Weakness, Opportunities & Threats for each of the current training development support received for tobacco prevention and control in NSW through:

- * A-TRAC program
- * Other training received.

Clinical and Non Clinical

Additional points to think about:

- * Strength – what and why this training works well?
- * Weakness – what and why hasn't this training worked so well?
- * Opportunities – what are the opp.s with this training for reduced smoking rates– long & short term.
- * Threats – what are major threats to this training model?

Yarning Circle

Part B

1. What has the Regional Tobacco Teams funding made possible and achieved 'on the ground'?
2. If you had the power to redesign the Program, what changes would you make?
3. What other comments do you have about the program or the review?
